

THE LAUNCH COLLECTION

GIFTS WITH INTENTION

HELLO

At The Launch Collection, we believe in gifting with intention. We know the value of sending clients home with something to remember you by - but it shouldn't be something they throw away a month later. Think engraved leather notebooks instead of plastic frisbees. We want your swag to reflect your company and serve your clients' specific needs.

Every project is custom so think of this catalog as a jumping off point and general price guide.
